Zinober, M. R., 137.

Index of Subjects

A

I. Absorption Spectrums of Plasma of Some Individual Animals, Studies on Blood Plasma of Domestic Animals, 91.

Aldrin (Compound 118) on Large Animals, Toxicologic Studies of, 378.

Allergens, Studies on Johnin. VIII. Preliminary Studies on the Specificities of Acid-Fast, 382.

Allergic Response to Johnin and Tuberculin of Various Skin Regions of Cattle, 301.

Anaplasmosis-like Disease in Swine, *Eperythrozoon Suis*, the Etiologic Agent of Ictero-Anemia or an, 324.

Anaplasmosis, The Transmission of, 5.

Anatomy of the Bovine Liver, Studies on the Subgross, II. The Pathology of Telangiectasis as Demonstrated by the Vinylite-Corrosion Technique, 166.

Anemia, Studies of the Virus of Equine Infectious, 157.

Anthelmintic for Ascariasis in Horses, Critical Tests with Sodium Fluoride as an, 26.

Anthelmintic Value of Substituted Phenolic Compounds in Dogs, Observations on the, 58.

Antigenic Characteristics of *Salmonella Pullorum*, Some, 221.

Ascariasis in Horses, Critical Tests with Sodium Fluoride as an Anthelmintic for, 26.

Atmospheric Gases on the Multiplication of Brucella, The Influence of, 70.

Aureomycin and Aureomycin-Sulfadiazine in Experimental Brucellosis in Guinea Pigs, Studies on the Efficacy of, 211.

Aureomycin on *Leptospira Canicola* and *Leptospira Icterohaemorrhagiae in Vitro* and Experimental Carrier Studies, Effect of, 89.

Avian Kidney, Observations on Circulation in the, 256.

Avian Leucosis, Studies in. V. An Investigation of the Possible Relationship of Sex Hormones to Visceral Lymphomatosis, 428.

Avian Pneumoencephalitis, *see also* Newcastle Disease.

Avian Tuberculosis, A Whole Blood, Rapid Agglutination Test for—A Preliminary Report, 137.

B

Bacitracin as Possible Treatment for Bovine Mastitis, Report on Subtilin and, 206.

Bacterins and a Chicken Embryo Vaccine in Mice, Studies on a *Pasteurella Multocida* Chicken Embryo Vaccine. I. The Comparative Immunizing Value of Broth, 252.

Blood and Egg Yolk as Measured by the Hemagglutination-Inhibition Test, Studies on Newcastle Disease. V. A Comparison of Newcastle Disease Antibody Titers in, 226.

Blood Cells in Experimental Listeriosis of Sheep, The Reaction of, 29.

Blood Plasma of Domestic Animals, Studies on. I. Absorption Spectrums of Plasma of Some Individual Animals, 91.

Blood Serum *Gamma* Globulin by Sulfadiazine, The Binding of, 366.

Blood Transfusion in Experimental Treatment of Bovine Brucellosis, Sulfamethazine and, 304.

Bovine Animals, Research on Foot-and-Mouth Disease. II. The Cultivation of the Virus in Explantations of Tongue Epithelium of, 371.

Bovine Brucellosis, Sulfamethazine and Blood Transfusion in Experimental Treatment of, 304.

Bovine Hyperkeratosis, The Relation of Feed to an Outbreak of, 355.

Bovine Liver, Studies on the Subgross Anatomy of the. II. The Pathology of Telangiectasis as Demonstrated by the Vinylite-Corrosion Technique, 166.

Bovine Mastitis, Pathogenesis of. II. The Pathologic Alterations in Twenty-Five Mammary Glands, 188.

Bovine Mastitis, Pathogenesis of. III. The Significance of Hypersensitivity in Streptococcic Infection, 317.

Bovine Mastitis, Report on Subtilin and Bacitracin as Possible Treatment for, 206.

Bovine Teat, Wall Structure and Closing Mechanisms of the, 349.

Bronchitis Virus, Pathology of the Chicken Embryo Infected with Infectious, 245.

Broth Bacterins and a Chicken Embryo Vaccine in Mice, Studies on a *Pasteurella Multocida* Chicken Embryo Vaccine. I. The Comparative Immunizing Value of, 252.

Brucella Abortus Infection in Cattle, Persistence of, 173.

Brucella Abortus Ring Test, The, 199.

Brucella, The Influence of Atmospheric Gases on the Multiplication of, 70.

Brucella, The Influence of Oxygen on the Metabolic Activities of, 75.

Brucellosis in Guinea Pigs, Studies on the Effect of Streptomycin in Experimental, 214.

Brucellosis in Guinea Pigs, Studies on the Efficacy of Aureomycin and Aureomycin-Sulfadiazine in Experimental, 211.

Brucellosis in Male Guinea Pigs, 84.

Brucellosis in Swine with Streptomycin and Sulfadiazine, Experimental Therapy of, 388.

Brucellosis, Sulfamethazine and Blood Transfusion in Experimental Treatment of Bovine, 304.

Bulls, A Quantitative Study of *Trichomonas Foetus* in Preputial Samples from Infected, 208.

Bull Semen, The Effect of Homogenization, Pasteurization, and Lyophilization on Egg-Yolk Sodium Citrate Diluents for, 153.

C

Canine Leptospirosis, Studies of. I. Evaluation of Laboratory Diagnostic Procedures. II. Serologic Determination of the Incidence of Latent Infection in the Lansing, Michigan Area, 405.

Carrier Studies, Effect of Aureomycin on *Leptospira Canicola* and *Leptospira Icterohaemorrhagiae in Vitro* and Experimental, 89.

Cattle, Allergic Response to Johnin and Tuberculin of Various Skin Regions of, 301.

Cattle, Infectious Keratitis of—A Preliminary Report, 17.

Cattle Naturally Infected with *Mycobacterium Paratuberculosis* (Johne's Disease), Studies with the Johnin and Tuberculin Intradermal Tests in, 181.

Cattle, Persistence of *Brucella Abortus* Infection in, 172.

Cells in Experimental Listeriosis of Sheep, The Reaction of Blood, 29.

Chicken Embryo Infected with Infectious Bronchitis Virus, Pathology of the, 245.

Chicken Embryo Vaccine, Studies on a *Pasteurella Multocida*. I. The Comparative Immunizing Value of Broth Bacterins and a Chicken Embryo Vaccine in Mice, 252.

Chickens, Toxicity of Chlordan to Growing, 233.

Chickens Vaccinated by the Intranasal Method with Live B1 Newcastle Disease Virus, Reinfection of, 437.

Chicks, Comparative Toxicity of DDT and Chlordan to Young, 142.

Chlordan and Toxaphene, Clinical and Pathologic Effects Produced in Goats by the Ingestion of Toxic Amounts of, 50.

Chlordan to Growing Chickens, Toxicity of, 233.

Chlordan to Laying Pullets, Toxicity of, 236.

Chlordan to Young Chicks, Comparative Toxicity of DDT and, 142.

Cholera, The Neuropathologic Diagnosis of Hog, 41.

Cholera, The Prophylactic and Therapeutic Properties of Sulfamerazine in Fowl, 414.

Circulation in the Avian Kidney, Observations on, 256.

Commercial Living Newcastle Disease Virus Vaccines, The Effects of, 272.

Complement-Absorption Test, Studies of the Conglutinating,. I. With Constant Complement, 98.

Conglutinating Complement-Absorption Test, Studies of the,. I. With Constant Complement, 98.

D

DDT and Chlordan to Young Chicks, Comparative Toxicity of, 142.

Digestive Efficiency in Different Type Dogs, A Study of Food Intake, Activity, and, 412.

Diluents for Bull Semen, The Effect of Homogenization, Pasteurization, and Lyophilization on Egg-Yolk Sodium Citrate, 159.

Dogs, A Study of Food Intake, Activity, and Digestive Efficiency in Different Type, 412.

Dogs, Observations on the Anthelmintic Value of Substituted Phenolic Compounds in, 58.

Dogs to Thyroidal Stimulation, The Response of Thyroidectomized and Intact, 149.

Domestic Animals, Studies on Blood Plasma of. I. Absorption Spectrums of Plasma of Some Individual Animals, 91.

E

Eggs Laid During Recovery Postinoculation with Newcastle Disease Virus, Search for Virus in, 426.

Egg Yolk as Measured by the Hemagglutination-Inhibition Test, Studies on Newcastle Disease. V. A Comparison of Newcastle Disease Antibody Titers in Blood and, 226.

Egg-Yolk Sodium Citrate Diluents for Bull Semen, The Effect of Homogenization, Pasteurization, and Lyophilization on, 159.

Eimeria Necatrix Infection, Sulfaquinoxaline, Nitrofurazone, and Nitrophenide in the Prophylaxis of Experimental, 278.

Eimeria Tenella, Effect of Sulfaguanidine upon the Developmental Stages of, 130.

Electron Micrographs of the Mouse-Adapted Newcastle Disease Virus, 231.

Embryo Infected with Infectious Bronchitis Virus, Pathology of the Chicken, 245.

Embryo Vaccine, Studies on a *Pasteurella Multocida* Chicken. I. The Comparative Immunizing Value of Broth Bacterins and a Chicken Embryo Vaccine in Mice, 252.

(Enterohepatitis) in Turkeys, Histomoniasis. I. A Procedure for the Screening and Testing of Drugs, 115.

(Enterohepatitis) in Turkeys, Histomoniasis. II. Chemotherapy of Experimental Histomoniasis, 120.

Eperythrozoon Suis, The Etiologic Agent of Ictero-Anemia or an Anaplasmosis-like Disease of Swine, 324.

Equine Infectious Anemia, Studies of the Virus of, 157.

Excretion of Steroid Hormones Concerned with Controlling Reproductive Processes in Animals, The, 161.

Explantations of Tongue Epithelium of Bovine Animals, Research on Foot-and-Mouth Disease. II. The Cultivation of the Virus in, 371.

Eyeworm of Poultry, Studies on *Oxyspirura Mansoni*, the Tropical. III. Preliminary Observations on Eyeworm Pathogenicity, 286.

F

Feed to an Outbreak of Bovine Hyperkeratosis, The Relation of, 355.

Ferret and Rabbit to the Modified Hamster-Adapted Newcastle Disease Virus, Response of the, 284.

Flat Pea Seed for Rats, The Deleterious Effects of, 217.

Fluoride as an Anthelmintic for Ascariasis in Horses, Critical Tests with Sodium, 26.

Foals, Further Studies on Hemolytic Icterus in, 22.

Foal, Studies on the Hematology of the Thoroughbred Horse. I. Mares in, 296.

Food Intake, Activity, and Digestive Efficiency in Different Type Dogs, A Study of, 412.

Foot-and-Mouth Disease, Research on. II. The Cultivation of the Virus in Explantations of Tongue Epithelium of Bovine Animals, 371.

Fowl Cholera, The Prophylactic and Therapeutic Properties of Sulfamerazine in, 414.

Fowl Typhoid, The Prophylactic and Therapeutic Properties of Sulfamerazine in, 421.

Foxes, Mucin Ineffective in Establishing Salmonella Infections in Mink and, 331.

G

Gamma Globulin by Sulfadiazine, The Binding of Blood Serum, 366.

Globulin by Sulfadiazine, The Binding of Blood Serum *Gamma*, 366.

Goats by the Ingestion of Toxic Amounts of Chlordan and Toxaphene, Clinical and Pathologic Effects Produced in, 50.

Guinea Pigs, Brucellosis in Male, 84.

Guinea Pigs, Studies on the Effect of Streptomycin in Experimental Brucellosis in, 214.

Guinea Pigs, Studies on the Efficacy of Aureomycin and Aureomycin-Sulfadiazine in Experimental Brucellosis in, 211.

H

Hamster-Adapted Newcastle Disease Virus, Response of the Ferret and Rabbit to the Modified, 284.

Hemagglutination-Inhibition Test, Studies on Newcastle Disease. V. A Comparison of Newcastle Disease Antibody Titers in Blood and Egg Yolk as Measured by the, 226.

Hematology of the Thoroughbred Horse, Studies on the. I. Mares in Foal, 296.

Hematology of the Thoroughbred Horse, Studies on the. II. Weanlings, 393.

Hematology of the Thoroughbred Horse, Studies on the. III. Stallions, 397.

Hemolytic Icterus in Foals, Further Studies on, 22.

Histomoniasis (Enterohepatitis) in Turkeys. I. A Procedure for the Screening and Testing of Drugs, 115.

Histomoniasis (Enterohepatitis) in Turkeys. II. Chemotherapy of Experimental Histomoniasis, 120.

Histopathology of Rat Tissues, The Effect of a Thiamine Analogue on the, 105.

Hog Cholera, The Neuropathologic Diagnosis of, 41.

Homogenization, Pasteurization, and Lyophilization on Egg-Yolk Sodium Citrate Diluents for Bull Semen, The Effect of, 159.

Horses, Critical Tests with Sodium Fluoride as an Anthelmintic for Ascariasis in, 26.

Horses, Studies on the Hematology of the Thoroughbred. I. Mares in Foal, 296.

Horses, Studies on the Hematology of the Thoroughbred. II. Weanlings, 393.

Horses, Studies on the Hematology of the Thoroughbred. III. Stallions, 397.

Hormones Concerned with Controlling Reproductive Processes in Animals, The Excretion of Steroid, 161.

Hormones to Visceral Lymphomatosis, Studies in Avian Leucosis. V. An Investigation of the Possible Relationship of Sex, 428.

Hyperkeratosis, The Relation of Feed to an Outbreak of Bovine, 255.

Hypersensitivity in Streptococcic Infection. Pathogenesis of Bovine Mastitis. III. The Significance of, 317.

I

Ictero-Anemia or an Anaplasmosis-like Disease in Swine, *Eperythrozoon Suis*, the Etiologic Agent of, 324.

Icterus in Foals, Further Studies on Hemolytic, 22.

Infectious Anemia, Studies of the Virus of Equine, 157.

Infectious Keratitis of Cattle—A Preliminary Report, 17.

Infectious Sinusitis of Turkeys, Experimental Transmission of, 260.

Intradermal Tests in Cattle Naturally Infected with *Mycobacterium Paratuberculosis* (Johne's Disease), Studies with the Johnin and Tuberculin, 181.

Intranasal Method with Live B1 Newcastle Disease Virus, Reinfection of Chickens Vaccinated by the, 437.

J

(Johne's Disease), Studies with the Johnin and Tuberculin Intradermal Tests in Cattle Naturally Infected with *Mycobacterium Paratuberculosis*, 181.

Johnin and Tuberculin Intradermal Tests in Cattle Naturally Infected with *Mycobacterium Paratuberculosis* (Johne's Disease), Studies with the, 181.

Johnin and Tuberculin of Various Skin Regions of Cattle, Allergic Response to, 201.

Johnin, Studies on. VIII. Preliminary Studies on the Specificities of Acid-Fast Allergens, 382.

K

Keratitis of Cattle, Infectious—A Preliminary Report, 17.

Kidney, Observations on Circulation in the Avian, 256.

L

Leptospira Canicola and *Leptospira Icterohaemorrhagiae in Vitro* and Experimental Carrier Studies, Effect of Aureomycin on, 89.

Leptospirosis, Studies of Canine. I. Evaluation of Laboratory Diagnostic Procedures. II. Serologic Determination of the Incidence of Latent Infection in the Lansing, Michigan Area, 405.

Leucosis, Studies in Avian. V. An Investigation of the Possible Relationship of Sex Hormones to Visceral Lymphomatosis, 428.

Listeriosis of Sheep, The Reaction of Blood Cells in Experimental, 29.

Liver, Studies on the Subgross Anatomy of the Bovine. II. The Pathology of Telangiectasis as Demonstrated by the Vinylite-Corrosion Technique, 166.

Lymphomatosis, Studies in Avian Leucosis. V. An Investigation of the Possible Relationship of Sex Hormones to Visceral, 428.

Lyophilization on Egg-Yolk Sodium Citrate Diluents for Bull Semen, The Effect of Homogenization, Pasteurization, and, 159.

Lyophilization, Recovery of Viable Microörganisms and Viruses from Vapors Removed from Frozen Suspensions of Biologic Material During, 339.

M

Mammary Glands, Pathogenesis of Bovine Mastitis. II. The Pathologic Alterations in Twenty-Five, 188.

Mares in Foal, Studies on the Hematology of the Thoroughbred Horse, I, 296.

Mastitis, Pathogenesis of Bovine. II. The Pathologic Alterations in Twenty-Five Mammary Glands, 188.

Mastitis, Pathogenesis of Bovine. III. The Significance of Hypersensitivity in Streptococcic Infection, 317.

Mastitis, Report on Subtilin and Bacitracin as Possible Treatment for Bovine, 206.

Metabolic Activities of Brucella, The Influence of Oxygen on the, 75.

Mice, Studies on a *Pasteurella Multocida* Chicken Embryo Vaccine. I. The Comparative Immunizing Value of Broth Bacterins and a Chicken Embryo Vaccine in, 252.

Michigan Area, Studies of Canine Leptospirosis. I. Evaluation of Laboratory Diagnostic Procedures. II. Serologic Determination of the Incidence of Latent Infection in the Lansing, 405.

Micrographs of the Mouse-Adapted Newcastle Disease Virus, Electron, 231.

Microörganisms and Viruses from Vapors Removed from Frozen Suspensions of Biologic Material During Lyophilization, Recovery of Viable, 339.

Mineral Components of Wheat Plants, A Quantitative Investigation of Some, 400.

Mink and Foxes, Mucin Ineffective in Establishing Salmonella Infections in, 331.

Mink, Enzoötic Mycosis in, 334.

Mouse-Adapted Newcastle Disease Virus, Electron Micrographs of the, 231.

Mucin Ineffective in Establishing Salmonella Infections in Mink and Foxes, 331.

Mycobacterium Paratuberculosis (Johne's Disease), Studies with the Johnin and Tuberculin Intradermal Tests in Cattle Naturally Infected with, 181.

Mycobacterium Paratuberculosis, Preliminary Studies on the Effect of Streptomycin and Other Agents on, 374.

Mycosis in Mink, Enzoötic, 334.

N

Newcastle Disease, Interpretation of Serologic Procedures for the Diagnosis of, 265.

Newcastle Disease, Studies on. V. A Comparison of Newcastle Disease Antibody Titers in Blood and Egg Yolk as Measured by the Hemagglutination-Inhibition Test, 226.

Newcastle Disease Virus, Electron Micrographs of the Mouse-Adapted, 231.

Newcastle Disease Virus, Reinfection of Chickens Vaccinated by the Intranasal Method with Live B1, 437.

Newcastle Disease Virus, Response of the Ferret and Rabbit to the Modified Hamster-Adapted, 284.

Newcastle Disease Virus, Search for Virus in Eggs Laid During Recovery Postinoculation with, 426.

Newcastle Disease Virus Vaccines, The Effects of Commercial Living, 272.

Nitrofurans on the Survival of *Trichomonas Foetus*, Effects, *in Vitro*, of Seven, 315.

Nitrofurazone, and Nitrophenide in the Prophylaxis of Experimental *Eimeria Necatrix* Infection, Sulfaquinoxaline, 278.

Nitrophenide in the Prophylaxis of Experimental *Eimeria Necatrix* Infection, Sulfaquinoxaline, Nitrofurazone, and 278.

Neuropathologic Diagnosis of Hog Cholera, The, 41.

O

Oxygen on the Metabolic Activities of Brucella, The Influence of, 75.

Oxyspirura Mansoni, the Tropical Eyeworm of Poultry, Studies on. III. Preliminary Observations on Eyeworm Pathogenicity, 286.

P

Pasteurella Multocida Chicken Embryo Vaccine, Studies on a. I. The Comparative Immunizing Value of Broth Bacterins and a Chicken Embryo Vaccine in Mice, 252.

Pasteurization, and Lyophilization on Egg-Yolk Sodium Citrate Diluents for Bull Semen, The Effect of Homogenization, 159.

Pathogenesis of Bovine Mastitis. II. The Pathologic Alterations in Twenty-Five Mammary Glands, 188.

Pathogenesis of Bovine Mastitis. III. The Significance of Hypersensitivity in Streptococcic Infection, 317.

Pathology of Telangiectasis as Demonstrated by the Vinylite-Corrosion Technique, Studies on the Subgross Anatomy of the Bovine Liver. II. The, 166.

Pathology of the Chicken Embryo Infected with Infectious Bronchitis Virus, 245.

Pea Seed for Rats, The Deleterious Effects of Flat, 217.

Phenolic Compounds in Dogs, Observations on the Anthelmintic Value of Substituted, 58.

Plasma of Domestic Animals, Studied on Blood. I. Absorption Spectrums of Plasma on Some Individual Animals, 91.

Poultry, Studies on *Oxyspirura Mansoni*, the Tropical Eyeworm of. III. Preliminary Observations on Eyeworm Pathogenicity, 286.

Poultry, The Absorption, Distribution, and Excretion of Sulfaquinoxaline in, 291.

Preputial Samples from Infected Bulls, A Quantitative Study of *Trichomonas Foetus* in, 308.

Prophylactic and Therapeutic Properties of Sulfamerazine in Fowl Cholera, The, 414.

Prophylactic and Therapeutic Properties of Sulfamerazine in Fowl Typhoid, The, 421.

Pullets, Toxicity of Chlordan to Laying, 236.

R

Rabbit to the Modified Hamster-Adapted Newcastle Disease Virus, Response of the Ferret and, 284.

Rats, The Deleterious Effects of Flat Pea Seed for, 217.

Rat Tissues, The Effect of a Thiamine Analogue on the Histopathology of, 105.

Reproductive Processes in Animals, The Excretion of Steroid Hormones Concerned with Controlling, 161.

Ring Test, The *Brucella Abortus*, 199.

S

Salmonella Infections in Mink and Foxes, Mucin Ineffective in Establishing, 331.

Salmonella Pullorum, Some Antigenic Characteristics of, 221.

Semen, The Effect of Homogenization, Pasteurization, and Lyophilization on Egg-Yolk Sodium Citrate Diluents for Bull, 159.

Serologic Procedures for the Diagnosis of Newcastle Disease, Interpretation of, 265.

Serum *Gamma* Globulin by Sulfadiazine, The Binding of Blood, 366.

Sheep, The Reaction of Blood Cells in Experimental Listeriosis of, 29.

Sinusitis of Turkeys, Experimental Transmission of Infectious, 260.

Sodium Citrate Diluents for Bull Semen, The Effect of Homogenization, Pasteurization, and Lyophilization on Egg-Yolk, 159.

Sodium Fluoride as an Anthelmintic for Ascariasis in Horses, Critical Tests with, 26.

Spectrums of Plasma of Some Individual Animals, Studies on Blood Plasma of Domestic Animals, I. Absorption, 91.

Stallions, Studies on the Hematology of the Thoroughbred Horse. III, 397.

Steroid Hormones Concerned with Controlling Reproductive Processes in Animals, The Excretion of, 161.

Streptococcic Infection, Pathogenesis of Bovine Mastitis. III. The Significance of Hypersensitivity in, 317.

Streptomycin and Other Agents of *Mycobacterium Paratuberculosis*, Preliminary Studies on the Effect of, 374.

Streptomycin and Sulfadiazine, Experimental Therapy of Brucellosis in Swine with, 388.

Streptomycin in Experimental Brucellosis in Guinea Pigs, Studies on the Effect of, 214.

Subtilin and Bacitracin as Possible Treatment for Bovine Mastitis, Report on, 206.

Sulfadiazine, Experimental Therapy of Brucellosis in Swine with Streptomycin and, 388.

Sulfaguanidine upon the Developmental Stages of *Eimeria Tenella*, Effect of, 130.

Sulfamerazine in Fowl Cholera, The Prophylactic and Therapeutic Properties of, 414.

Sulfamerazine in Fowl Typhoid, The Prophylactic and Therapeutic Properties of, 421.

Sulfamethazine and Blood Transfusion in Experimental Treatment of Bovine Brucellosis, 304.

Sulfaquinoxaline in Poultry, The Absorption, Distribution, and Excretion of, 291.

Sulfaquinoxaline, Nitrofurazone, and Nitrophenide in the Prophylaxis of Experimental *Eimeria Necatrix* Infection, 278.

Swine, *Eperythrozoon Suis*, the Etiologic Agent of Ictero-Anemia or an Anaplasmosis-like Disease in, 324.

Swine with Streptomycin and Sulfadiazine, Experimental Therapy of Brucellosis in, 388.

T

Teat, Wall Structure and Closing Mechanisms of the Bovine, 349.

Telangiectasis as Demonstrated by the Vinylite-Corrosion Technique, Studies on the Subgross Anatomy of the Bovine Liver. II. The Pathology of, 166.

Test for Avian Tuberculosis, A Whole Blood, Rapid Agglutination—A Preliminary Report, 137.

Tests in Cattle Naturally Infected with *Mycobacterium Paratuberculosis* (Johne's Disease), Studies with the Johnin and Tuberculin Intradermal, 181.

Test, Studies of the Conglutination Complement-Absorption. I. With Constant Complement, 98.

Test, Studies on Newcastle Disease. V. A Comparison of Newcastle Disease Antibody Titers in Blood and Egg Yolk as Measured by the Hemagglutination-Inhibition, 226.

Test, The *Brucella Abortus* Ring, 199.

Therapeutic Properties of Sulfamerazine in Fowl Cholera, The Prophylactic and, 414.

Therapeutic Properties of Sulfamerazine in Fowl Typhoid, The Prophylactic and, 421.

Therapy of Brucellosis in Swine with Streptomycin and Sulfadiazine, Experimental, 388.

Thiamine Analogue on the Histopathology of Rat Tissues, The Effect of a, 105.

Thoroughbred Horse, Studies on the Hematology of the. I. Mares in Foal, 296.

Thoroughbred Horse, Studies on the Hematology of the. II. Weanlings, 393.

Thoroughbred Horse, Studies on the Hematology of the. III. Stallions, 397.

Thyroidectomized and Intact Dogs to Thyroidal Stimulation, The Response of, 149.

Titers in Blood and Egg Yolk as Measured by the Hemagglutination-Inhibition Test, Studies on Newcastle Disease. V. A Comparison of Newcastle Disease Antibody, 226.

Tongue Epithelium of Bovine Animals, Research on Foot-and-Mouth Disease. II. The Cultivation of the Virus in Explantations of, 371.

Toxaphene, Clinical and Pathologic Effects Produced in Goats by the Ingestion of Toxic Amounts of Chlordan and, 50.

Toxic Amounts of Chlordan and Toxaphene, Clinical and Pathologic Effects Produced in Goats by the Ingestion of, 50.

Toxicity of Chlordan to Growing Chickens, 233.

Toxicity of Chlordan to Laying Pullets, 236.

Toxicity of DDT and Chlordan to Young Chicks, Comparative, 142.

Toxicologic Studies of Aldrin (Compound 118) on Large Animals, 378.

Transfusion in Experimental Treatment of Bovine Brucellosis, Sulfamethazine and Blood, 304.

Trichomonas Foetus, Effects, *in Vitro*, of Seven Nitrofurans on the Survival of, 315.

Trichomonas Foetus in Preputial Samples from Infected Bulls, A Quantitative Study of, 308.

Tropical Eyeworm of Poultry, Studies on *Oxyspirura Mansoni*, the. III, Preliminary Observations on Eyeworm Pathogenicity, 286.

Tuberculin Intradermal Tests in Cattle Naturally Infected with *Mycobacterium Paratuberculosis* (Johne's Disease), Studies with the Johnin and, 181.

Tuberculin of Various Skin Regions of Cattle, Allergic Response to Johnin and, 301.

Tuberculosis, A Whole Blood, Rapid Agglutination Test for Avian—A Preliminary Report, 137.

Turkeys, Experimental Transmission of Infectious Sinusitis of, 260.

Turkeys, Histomoniasis (Enterohepatitis) in. I. A. Procedure for the Screening and Testing of Drugs, 115.

Turkeys, Histomoniasis (Enterohepatitis) in. II. Chemotherapy of Experimental Histomoniasis, 120.

Typhoid, The Prophylactic and Therapeutic Properties of Sulfamerazine in Fowl, 421.

V

Vaccines, The Effects of Commercial Living Newcastle Disease Virus, 272.

Vaccine, Studies on a *Pasteurella Multocida* Chicken Embryo. I. The Comparative Immunizing Value of Broth Bacterins and a Chicken Embryo Vaccine in Mice, 252.

Viable Microörganisms and Viruses from Vapors Removed from Frozen Suspensions of Biologic Material During Lyophilization, Recovery of, 339.

Vinylite-Corrosion Technique, Studies on the Subgross Anatomy of the Bovine Liver. II. The Pathology of Telangiectasis as Demonstrated by the, 166.

Virus, Electron Micrographs of the Mouse-Adapted Newcastle Disease, 231.

Viruses from Vapors Removed from Frozen Suspensions of Biologic Material During Lyophilization, Recovery of Viable Microörganisms and, 339.

Virus in Eggs Laid During Recovery Postinoculation with Newcastle Disease Virus, Search for, 426.

Virus in Explantations of Tongue Epithelium of Bovine Animals, Research on Foot-and-Mouth Disease. II. The Cultivation of the, 371.

Virus of Equine Infectious Anemia, Studies of the, 157.

Virus, Pathology of the Chicken Embryo Infected with Infectious Bronchitis, 245.

Virus, Reinfection of Chickens Vaccinated by the Intranasal Method with Live B1 Newcastle Disease, 437.

Virus, Response of the Ferret and Rabbit to the Modified Hamster-Adapted Newcastle Disease, 284.

Virus Vaccines, The Effects of Commercial Living Newcastle Disease, 272.

Visceral Lymphomatosis, Studies in Avian Leucosis. V. An Investigation of the Possible Relationship of Sex Hormones to, 428.

W

Weanlings, Studies on the Hematology of the Thoroughbred Horse. II, 393.

Wheat Plants, A Quantitative Investigation of Some Mineral Components of, 400.
